Company Summary

Organized in 1968 the company has been engaged in the manufacture and distribution of various types of energy efficient aluminum windows, doors, storefront and curtain walls in the State of Ohio. Primary clients include public schools, government buildings and private businesses.

The facility consists of 75,000 square feet of manufacturing, warehouse and office space located on 19 acres along U.S. Route 20. The company is equipped with specialized production equipment for cutting, machining, and assembling aluminum extrusions.

Capitol incorporates automated technology and lean manufacturing concepts for ergonomics and safety. Our Technical staff is proficient in AutoCAD, CNC programming, and systems design. Our order processing is completely computerized with specifically designed software to serve customer needs. We also have our own in-house testing capabilities. Each CAPITOL product is tested in-house before being sent to independent testing laboratories to be certified.

Past Project Clients include:

Numerous OSFC Projects
Numerous Public Schools

Ohio State University
