

BUILT TO LAST. DESIGNED TO IMPRESS. INSTALLED TO PERFECTION.

FRAME YOUR FUTURE

Space saving solutions that focus on efficiency, security, and aesthetics

EHOVE Career Center Milan, OH

(Featured Above)

EHOVE Career Center sought a custom solution to protect valuable sound board equipment in the Multipurpose Room.

Capitol's custom frame and entry door now securely encloses the equipment area, preventing unauthorized access and protecting it from potential damage.

Endless Possibilities

From entrance vestibules and partitions to room dividers, our versatile aluminum framing systems can adapt to any space and design requirement.

Durability and Aesthetics

Our high-quality aluminum systems offer a sleek, modern look while providing exceptional durability and low maintenance.

Long-Term Value

Invest in a durable and low-maintenance solution that will enhance your building's value and reduce operational costs.

From entrance vestibules and partitions to room dividers, our versatile systems offer endless possibilities and can adapt to just about any space and design requirement. Whether you need to create private offices, collaborative workspaces, or secure entry points, Capitol doors the possibilities!

DIVIDE AND CONQUER

Tailored Solutions for Your Building

Whether you need to redefine your entrance, create private areas, or divide collaborative workspaces, our space saving solutions are the perfect fit. This brochure showcases how **real customers** have brought their unique designs to life.

OSU Archer House Residence Hall - Columbus, OH

Enhanced security measures implemented at this Residence Hall prioritized student and staff safety by adding a new interior vestibule. This strategic measure effectively deters unauthorized access and establishes a controlled entry point, significantly enhancing overall campus security.

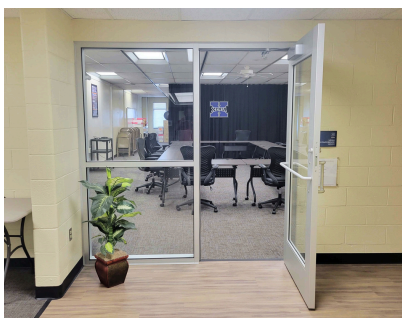

Grace Community Church - Fremont, OH

This house of worship improved overall building functionality with implementing new aluminum doors, glass, and frames at two areas around their main conference area. These strategically placed entrances improve foot traffic control and designate exit routes that are exit-only.

Cardinal Pacelli School - Cincinnati, OH

To enhance security and create a modern aesthetic at the main office reception desk, Cardinal Pacelli School selected Capitol doors and framing. This Z-shaped enclosure includes rated security glazing and a transaction window, providing a protective barrier for staff and students while maintaining a welcoming environment.

Xenia Administration Building - Xenia, OH

The school administration building significantly enhanced workspace efficiency and security with the installation of custom aluminum doors and frames. Capitol transformed open spaces within block walls into private offices and a dedicated conference room. These improvements create a quieter, more professional environment for staff and visitors alike.
