CAPITOL Aluminum & Glass
Window & Door Specialists

PROJECT SPOTLIGHT

Buckeye Central K-12 School

New Washington, OH

NATURAL LIGHT. DURABLE SYSTEMS. SUSTAINABLE DESIGN.

Bright learning spaces and welcoming entrances set the tone at the new Buckeye Central K–12 School. Working with Adena Corporation, Capitol Aluminum & Glass manufactured and installed a complete package of architectural aluminum windows, doors, storefronts, and curtain wall systems. The coordinated glazing helps define the school's architectural character while bringing natural light into spaces for learning and gathering. Durable aluminum framing and Low-E insulated glass support everyday performance and energy efficiency. The project achieved LEED Gold certification.
